

BUILT TOUGH

CAT WORKWEAR CORE CATALOGUE

STANDARD TESTING

Cat Footwear manufactures premium, safety footwear symbolizing a 100-year connection Caterpillar has to tough, honest work. Our safety footwear collection includes a variety of comfort, durability, safety and technology features intended to keep workers protected and comfortable in the harshest of conditions.

Standard Testing

Our safety footwear is tested to meet AS/NZS 2210.3:2009 and performance standards for 'Personal Protective Footwear' sold in Australia and New Zealand. Additional features and protection may be provided within the footwear as indicated below:

COMPOSITE SAFETY TOE

Cat® footwear with Composite Safety Toes are rated to AS/NZS 2210.3:2009 and are non-metallic and undetectable in electronic security environments.

NON METALLIC

Cat Footwear Non Metallic styles are entirely free of metal, making them an excellent choice for high security environments.

EASE

EASE is a lightweight, custom engineered foam, proprietary to Cat Footwear. Compared to regular EVA and foam, EASE provides:

- 30% greater longevity by taking 30% less compression - it won't break down or compress
- 30% more energy return - giving you more bounce back
- Lightweight comfort - 10-15% lighter.

STATIC DISSIPATING

Shoes labeled SD meet AS/NZS 2210.3:2009 standard for Static Dissipative footwear. These shoes are designed to minimize the buildup of static electricity while maintaining high enough resistance to help protect against live electrical circuits

ERGO LITE

Athletic inspired design, construction and engineering. ERGOlite is made for the worker who is required to wear safety footwear, but wants anything but.

SLIP RESISTANT

Cat® footwear with Slip Resistant soles reduces the risk of slips and falls—the hazard of low traction surfaces.

STEEL TOE

Cat® Steel Toe boots are rated AS/NZS 2210.3:2009 the highest available strength for impact and compression.

NANOTOE

Faster. Thinner. Stronger. Nano Toe is a non metallic standards approved safety toe that is 40% lighter than steel and 15% lighter than composite toes, providing more space and comfort for your toes without sacrificing any protection.

WATERPROOF

Cat® Waterproof footwear keeps the wet out with waterproof leathers, seam sealing and waterproof liners.

CAT BOOTS FOR EVERY TYPE OF JOB

HEAVY INDUSTRIAL

HARSH CONDITIONS. EXTREME ENVIRONMENTS. Our "Heavy Industrial" category is built to handle the most demanding jobs, with all the precision engineering and specialized features you expect from the world's toughest footwear.

GENERAL PURPOSE INDUSTRIAL

INDOORS. OUTDOORS. LIFTING. FIXING. Some jobs throw it all at you in a single day, and our "Industrial" category of work footwear is designed to handle it all.

LIGHT INDUSTRIAL

INDOORS. OUTDOORS. SERVICE RELATED ENVIRONMENTS. Built to give you the comfort of an everyday boot with the features your jobsite requires.
